

Career Palooza

Hvac

We got to race

Solar Pannels

The guy in Hvac

was Really nice

I have had a good

time Shawil Woodard

My favorite part
of the trip was the
tech class because we
got to build and
program robots.
It made me
feel like a
scientific genius.

Testimonials

Ty Jones

My favorite part was racing the solar powered cars.

Hvac was my favorite part of the camp. It was my favorite part because we got to cut ~~the~~ ^{copper} use a torch, and race solar panel cars.

Jake Ackison

Savannah Miles

What I liked about buckeye hills trip is that I got to hang out with friends, and I also got to go to child development and it made me feel good, because I like children.

Taylor Dyer

What I like about buckeye hills was I got to hangout with my best friend Savannah Miles. And I also liked about the trip was cute and child development it was fun.

Student
Testimonials

My favorite part of the trip
is the construction
because it made me feel
like I can do better
than boys because I
PRACTICE PRACTICE
PRACTICE !!!
Harder than them

Charlie

Hanging out with friends
It makes me feel great!

Brianna

My favorite part of the camp was the
tech because building the robots was really
fun.

Kirsten Evans

Also I like working on cars,
changing the oil and the gas and
brakes.

Brianna

My favorite part about the crew trip is the part where we meting all the new people and learning about how hard it is having a job and how much work it takes to grow up and all that. That made me feel good to know that someday I will do that.
Someday

HVAC

Because it was fun and I learned how to put the copper pipe together
